Dear Mr. Carlos Pedroso,

We are delighted to inform you that your submission #196049 ("Mitigação
de Ataques IDFs no Serviço de Agrupamento de Disseminação de Dados em
Redes IoT Densas") to the 19th Brazilian Symposium on Information and
Computer System Security (SBSeg 2019) has been accepted as a FULL PAPER.
Congratulations! This year we had 80 paper submissions, which went
through a rigorous, double-blind selection process by the Technical
Program Committee. Each paper received at least three, and in most cases
four, reviews by experts in the field. Out of the 80 papers submitted,
only 27 (33,75%) were accepted as full papers.

The reviews are attached below and can also be found at
https://jems.sbc.org.br/PaperShow.cgi?m=196049.

The HARD DEADLINE to submit the camera-ready version of your paper is
*** 25 July 2019 ***. The revised paper should incorporate, insofar as
possible, all changes suggested by the reviewers. Please submit it
rigorously according to the SBC template available at
http://www.sbc.org.br/documentos-da-sbc/category/169-templates-para-artigos-e-capitulos-de-livros.
Please note that the page limit is 14.

Observe also that at least one author is required to register for the
conference before *** 25 July 2019 *** at the full (member or
non-member) rate. For authors with multiple accepted papers, one full
registration is valid for up to 2 papers.

Finally, please fill in, sign, and submit, by the same deadline, the
Authorization Term for Publication available at
http://www.sbc.org.br/documentos-da-sbc/category/164-publicacoes.

Again, congratulations on your excellent work. We look forward to seeing
you in São Paulo, SP, 2-5 September 2019!

Best regards,

Eduardo Feitosa and Luciano Gaspary.
SBSeg 2019 TPC Co-Chairs
